DETAILED ACTION

The finality of the last Office Action is hereby withdrawn.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 37-38 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Galli et al (US 3,781,596).

Galli discloses that in Fig. 10, 71 is etched to form a plurality of wiring lines (col. 9, lines 10-11) on a surface of a core layer 10, and further etching 71 using mask 74 to form a different thickness first portion 12 than a second portion 13 (Fig. 1a).

Conclusion

3. **Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity (optional). Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.**
